FEATURE ARTICLES

Dominion makes strides in nuclear station transformer and switchyard reliability
BY RICHARD ZUERCHER 19

What is the initial market for hydrogen from nuclear energy?
BY CHARLES W. FORSBERG 24

SPECIAL REPORT: 2004 ANS WINTER MEETING 38

ANS Winter Meeting: The revival of nuclear energy—Going forward together 38

Embedded Topical: 2004 Operating Nuclear Facility Safety:
Successes and challenges 52

Embedded Topical: International Meeting on Updates in Best Estimate Methods in
Nuclear Installations Safety Analysis 54

INDEX TO 2004 NUCLEAR NEWS CONTENTS 73

POWER 10

ASLB grants hearing on contentions to Vermont Yankee power uprate request. Entergy Nuclear decides to seek license renewal for Pilgrim plant. INEEL researchers demonstrate feasibility of thermal electrolysis process for hydrogen production. NRC approves NEI guidance on containment sump issue. NRC issues draft environmental impact statement on Dominion Nuclear's request for early site permit. NRC's action plan to address problems at Davis-Besse said to be on schedule. Oil tanker spill in Delaware River prompts shutdown of Salem-1 and -2. FPL applies for amendment to St. Lucie-2 license to allow more extensive steam generator tube inspection. Turkey Point-3 restart delayed by inadvertent control rod insertions.

SECURITY 15

UN report says nuclear energy has a role in meeting world's energy demands, with strengthened nonproliferation measures.

OPERATIONS 19

Dominion makes strides in nuclear station transformer and switchyard reliability.

INTERNATIONAL 28

IAEA adopts resolution on Iran's assurances that its nuclear program is for peaceful purposes only. India begins construction of prototype fast breeder reactor. Nuclear industry leaders call for European Union policymakers to support nuclear power. No shift expected in European Commission's nuclear policy under new energy commissioner. China's vice premier calls for accelerating construction of nuclear power plants. European Commission to investigate U.K. decommissioning authority. South Africa's cabinet approves increased funding for pebble bed reactor project. KEDO agrees to continue suspension of North Korean reactor project. German nuclear law conference focuses on government actions to

INTERNATIONAL—CONTINUED

promote nuclear phaseout. International Energy Agency's annual review spells out challenges facing nuclear power and renewables. Ship carrying Australian spent fuel departs for France. Expert groups submit reports to IAEA on agency's safeguards performance. IAEA to oversee research on developing fusion-fission hybrids to transmute nuclear waste.

WASTE MANAGEMENT

56

Energy commission calls for construction of ISFSI in parallel with Yucca Mountain repository. Surry ISFSI to receive first-ever license extension. NRC orders increased security for proposed ISFSIs at Ft. Calhoun and Quad Cities. Deadline extended for DOE to accept HEU from foreign research reactors. Lawsuit alleges new nuclear transportation regulations endanger workers. ANS issues position statement on low-level radioactive waste disposal capability. AMEC receives contract for test-melt at Hanford.

INDUSTRY

60

Global Dosimetry acquires Proxtronics; other business developments. ATI Allegheny Ludlum, PEC Solutions, others sign for work.

RESEARCH

69

Panel finds no strong evidence for cold fusion, but supports funding for some new work. European Union backs siting fusion reactor in France, with or without Japan.

FUEL

70

MOX fuel fabrication technology to be transferred to Russia. USEC completes purchase of NAC International; USEC chief in speech calls on Congress to get moving on energy policy.

STANDARDS

71

Standards approved, withdrawn, initiated; comments requested.

EDUCATION

72

DOE grant to help establish collaborative nuclear engineering education program in Ohio. University of Missouri-Rolla seeks renewal of research reactor's operating license.
